National Symposium on the Management of Hand & Upper Limb Injuries 2011

Ambulatory Care Centre Auditorium
Hospital Tengku Ampuan Afzan, Kuantan.

30 September - 1 October 2011

"Going the distance to achieve maximum
functional outcome"

Message from the Organizing Chairman

It is with great pleasure that I welcome you all to this year's National Symposium on Management of Hand & Upper Limb Injuries.

The importance of having a dedicated therapist cannot be overemphasized. Both doctors and therapists must literally work hand in glove so as to minimize the morbidity to the upper limb. We hope that this symposium will enable surgeons and therapists to share their combined experience in the management of these patients to achieve a commendable end result. This is in keeping with the age old principle of the founder of hand surgery, Dr. James M. Hunter.

I do hope that you will come and join us in this annual event while taking the opportunity to enjoy the charm and hospitality of Kuantan!

Dato' Dr. N. Premchandran

Target Participants:

1. Orthopaedic Surgeons
2. Orthopaedic Trainees
3. Medical and House Officers
4. Paramedical Staff/ Nurses
